2. ULEVTF 2024/25

The following table provides some details of the infrastructure which has been delivered through the ULEVTF award for 2024/25. Whilst the design and works have been completed, additional EVCP could be considered for these sites.

Proposed site	Area	Details	Proposed number of unit(s)
Llanfairfechen Car Park	Llanfairfechen	DNO supply installed and location of EVCP established	
Watling Street Car Park	Llanrwst	DNO supply to install 35KVA and location of EVCP established	2 x 22kw double charging stations for a total of 4 sockets
Plas yn Dre Car Park	Llanrwst	DNO supply to install 44KVA and location of EVCP established	2 x 22kw double charging stations for a total of 4 sockets
York Road Car Park	Llandudno	DNO supply to install 44KVA and location of EVCP established	2 x 22kw double charging stations for a total of 4 sockets

3. ULEVTF 2025/26 and beyond

CCBC's intention is to provide EVCPs in all of our public car parks as part of our strategy. We will be apply through the ULEVTF for funding to support the delivery of the DNO connections. The following table is taken for the Strategy and provides information on proposals for EVCP in our car parks. Please note that bay numbers and charger types are subject to change, in discussion with the EVCPO.

Table 16: Proposed Off-Street EVC Provision (2025)

Settlement	Car Park	No. Spaces	EV Bays 2025	% Parking Provision	EVC Type
Conwy	Bodlondeb, Conwy	177	10	6%	Rapid
