D. APPENDIX 5 – ASSET LISTS

D1. INTRODUCTION

This appendix provides a list of assets that fall within the scope of this Heating Plant Services Contract. The asset list has been prepared using information provided by the current maintenance contractor and represents the University's best understanding of the equipment because at the time of issue.

The list is provided to assist Tenderer's in preparing accurate and comprehensive pricing and service proposals. It is the responsibility of Tenderers to familiarise themselves with the sites and asset base as part of their tender preparation.

Tenderers must ensure that their Planned Preventative Maintenance (PPM), statutory inspection and reactive maintenance pricing fully reflects the assets listed in this Appendix, together with the service requirements set out it:

- Appendix 1 – Planned Preventative Maintenance (PPM) Specification
- Appendix 2 – Service Specification and Performance Requirements

D2. SCOPE OF ASSETS

The asset list covers:

- All gas-fired heating plant including but not limited to:
 - Boilers (modular and standalone)
 - Calorifiers and Water Heaters
 - Associated heating plant items relevant to the scope of this contract.
- All Pressure Vessels and associated equipment, including vessels subject to statutory inspection under the Pressure Systems Safety Regulations (PSSR).

Assets related to HVAC systems (e.g. AHU, ventilation fans, split AC units) are not included in this contract and are therefore **not listed** in this Appendix.

D3. ASSET LISTS

The following tables details the assets included within the scope of this tender. Asset information is organised by **Campus / Site** and includes relevant location, description and reference information.

Note to Tenderers: This asset list is provided for tendering purposes. The University reserves the right to update asset information during the mobilisation phase if discrepancies are identified. Tenderers must satisfy themselves as to the nature and extent of the assets prior to submission.

D4. SITE ACCESS AND VERIFICATION

Tenderers are encouraged to arrange site visits during the tender period to verify the asset information and assess site conditions. Site visits must be arranged in advance with the University Estates Department as detailed in Section 7 of the ITT.

D5. FUTURE UPDATES & CONTRACTOR RESPONSIBILITY

The asset list represents the University's best understanding at the time of issue. Assets may be added, removed or amended during the life of the contract due to replacement works, capital projects or operational changes.

The Contractor will be required to maintain and update the asset register throughout the duration of the contract and to notify the University promptly of any discrepancies identified during mobilisation or routine maintenance.

D6. ASSET REGISTER VERIFICATION REQUIREMENT

Within the first 12 months of the Contract Commencement Date, the Contractor shall complete a full verification of all heating plant assets covered by this Contract. The verification must include confirming asset details, identifying any missing equipment, and providing the University with an updated and accurate asset register. Thereafter, the Contractor shall maintain the asset register and notify the University promptly of any discrepancies or changes discovered through maintenance activities or inspections.

D6.1 NORTHOP CAMPUS

D6.1.1 MITCHELMOORE

<u>Asset Description</u>	<u>Make / Capacity</u>	<u>Model / Max Pressure</u>	<u>Serial Number / Bar Litres</u>	<u>What3Words</u>	<u>Location</u>	<u>Notes</u>
Water Heater	Andrews	EC380/740 GB	EJ11089006	CRINKLED TOPMOST SPOIL	Mitchelmore	N/A
