Amlinelliad o Ofynion y Cytundeb:	Outline of Contract Requirements:
Mae Cyngor Bwrdeistref Sirol Conwy'n awyddus i benodi contractwr cymwys a phrofiadol i gyflenwi, gosod, comisiynu, cyflunio a chynnal a chadw systemau Teledu Cylch Caeëdig (TCC) ar draws saith cyfleuster hamdden a weithredir gan yr Awdurdod. Bydd y contractwr llwyddiannus yn gyfrifol am ddarparu datrysiad TCC modern wedi'i integreiddio'n llawn sy'n darparu goruchwyliaeth o ansawdd uchel, tystiolaeth recordio ac integreiddiad â Chanolfan Derbyn Larymau Conwy. Mae CBSC yn gweithredu systemau TCC ar draws chwe chyfleuster hamdden ar hyn o bryd. Mae'r systemau hyn wedi cyrraedd diwedd eu hoes ac nid ydynt yn darparu'r dibynadwyedd, ymarferoldeb na'r safonau cydymffurfio sy'n ofynnol i gefnogi anghenion diogelwch a gweithredol modern mwyach. Yn ogystal â hynny, nid oes system TTC mewn un cyfleuster hamdden ar hyn o bryd sy'n golygu bod angen gosod un newydd. Bydd y prosiect yn darparu platfform TCC cyson ar draws y saith safle hamdden, gan wella prosesau monitro, lleihau nifer y problemau cynnal a chadw sy'n gysylltiedig â hen offer a darparu datrysiad i'r dyfodol y gellir ei ymestyn a'i uwchraddio wrth i ofynion gweithredol ddatblygu.	Conwy County Borough Council is seeking to appoint a suitably qualified and experienced contractor for the supply, installation, commissioning, configuration and ongoing maintenance of CCTV systems across seven leisure facilities operated by the Authority. The successful contractor will be responsible for delivering a modern, fully integrated CCTV solution that provides high-quality surveillance coverage, evidential recording capability and integration with the Conwy Alarm Receiving Centre (ARC) CCBC currently operates CCTV systems across six leisure facilities. These systems have reached the end of their operational life and no longer provide the reliability, functionality or compliance standards required to support modern operational and security needs. In addition, one leisure facility currently has no CCTV coverage and requires a new installation. The project will deliver a consistent CCTV platform across seven leisure sites, improving monitoring capabilities, reducing maintenance issues associated with obsolete equipment and providing a future-proof solution that can be expanded and upgraded as operational requirements evolve.
